

M5 East Motorway

MAY 2015

M5 East Tunnel maintenance work will be carried out at 27 Henderson Street, Turrella on Tuesday 13 May 2015 between 10pm and 1.30am, weather permitting.

The NSW Government is funding this essential work and is aiming to improve tunnel safety and minimise traffic disruption.

Roads and Maritime Services will be carrying out M5 East tunnel maintenance work at 27 Henderson Street, Turrella. The work is scheduled during the May 2015 maintenance shutdown.

The M5 East Service Provider Leighton Contractors will carry out this important work. The work is being carried out in a single night-shift, which will involve the use of vacuum trucks at the Turrella substation to clean out a stormwater retention pit located within the tunnel. The work is planned for Tuesday 13 May 2015 between 10pm and 1.30am, to coincide with the monthly motorway maintenance closure.

Plant and equipment used for this work includes two vacuum trucks and utility vehicles.

Noise levels are expected to be minimal, given the noisiest work will be conducted within the tunnel itself.

We apologise for any inconvenience caused and will take steps to minimise any impact associated with this important work.

For further information, please do not hesitate to call our office on (02) 8577 3700 or email M5East@leicon.com.au.

Yours sincerely

Aedan Hewitt

Operations and Maintenance Manager, M5 East
Leighton Contractors
